Australian Government

\$700 Household Electricity Credit

Dear WA Household,

Delivering real cost of living relief is a top priority for the Western Australian and Australian Governments.

As part of our cost-of-living support initiatives, every Western Australian household will receive \$700 in electricity credits in 2024-25.

The credit will be split into two instalments, with your household's **first \$350 payment** applied to this power bill – and it will remain on your electricity account until it runs out.

The **second \$350 payment** will be applied in the December-January billing cycle, ensuring households receive power bill relief during our coldest and warmest months.

The Household Electricity Credit is jointly funded by the State and Commonwealth Governments.

Additional support with electricity bills is also available for households with eligible concessions, including the Energy Assistance Payment and the Dependent Child Rebate – providing more than \$1,300 in power bill relief to those who need it most.

This is the fourth electricity credit delivered by the WA Labor Government, and means every WA household has received at least \$2,100 in power bill relief over the past four years.

If you have a direct debit, there is no need to cancel your payments. When your bills are issued, the total bill amount due will be deducted from the credit until it is all used. If there is a balance that remains once the credit is used, then this will be debited on the due date.

Our economy leads the nation, but we know interest rates and inflation have put pressure on households – which is why the WA and Australian Governments are committed to delivering support to every Western Australian.

Yours sincerely,

A handwritten signature in blue ink, reading "Roger Cook".

Roger Cook
