Finances

Current Stats (Bills & Subscriptions)

From 'SubManager' - Have the Bills laid out there
[17 / 03 / 2025]

- **Monthly Average:** ~ \$470
- **Total Bills (Annual):** ~ \$5,640
- **Fortnightly Budget:** ~ \$235

Expenses to Cut

Expense	Amount	Notes
Plus Fitness Gym	\$28 / Month	- Already at XS aswell, might as well pass this one up - you hate that gym anyway
SSL All Access Pass	\$32 / Month	- Some INSANE plugins, but at the end of the day only ' <i>nice to haves</i> ' - might be locked into sub for rest of year
UAD Spark	\$32 / Month	- Same as above - but don't think locked into contract

- Just these 3 = \$92 / Month
 - That equals out to be: **\$1104 / Annual**
- If SSL Subscription is locked then that's = \$60 / Month
 - That equals out to be: \$720

[REMEMBER]:

Above are really the only continual expenses that equal any significant ammount.
Other than that will need to minimise *unneeded* expenses (*ie:* Uber Eats, etc)

Important

- If decided on pausing these subscriptions, then make sure to go through old MX projects & bounce down tracks using these plugins.
