Who We Are

We are a collective of 2–4 specialist audio engineers based in Perth, working individually or as a unified team depending on scope. Together, we cover the full audio spectrum — from tracking and mixing original music to delivering broadcast-ready podcast episodes, polished film audio, and immersive game soundscapes.

Our engineers bring backgrounds across:

- Commercial studios & independent artists
- Film, TV, documentary & advertising post
- Podcast networks, broadcast & corporate media
- Game studios, interactive & XR audio

How We Work

01

Discovery

We learn your project goals, references, and deadlines. Initial consultation is always free.

02

Proposal

You receive a clear scope of work, timeline, and fixed-fee quote within 24 hours.

03

Production

We deliver on time with regular check-ins and revision rounds built into every project.

04

Delivery

Final files, platform-specific formats, stems, and session files — complete handover.

Why Work With Us

24hr

Quote Turnaround

100%

On-Time Delivery

3+

Free Revisions Per Project

Full-Spectrum Team

Music, film, podcast, and game audio under one roof — no referral delays, no communication gaps between disciplines.

Flexible Engagement

Work with one engineer or the full collective. Scale up or down based on project scope and budget.

Transparent Pricing

Fixed-fee quotes before we start. No surprise invoices, no scope creep, no hidden studio fees.

Local + Remote Ready

Perth-based for in-person sessions, fully remote-capable for clients across Australia and internationally.
